

Air Frying Hofmann

Air frying is a fast and easy way to prepare small quantities of our products indoors.

Directions

- * Preheat your air fryer to 390 degrees F. If you have a simple air fryer with timer, you will not preheat and the cooking time should be increased.
- * Place 4 German Franks, Snappys or another Hofmann hot dog or sausage in the air fryer basket and cook 3-6 minutes depending on your air fryer unit, remove and set aside. Remember that Hofmann products are already fully cooked.
- * Place 4 buns in the air fryer basket and cook a 1 1/2-2 minutes and remove.
- * Combine hot dogs/sausages and buns, topping of your choice. Enjoy!

Prep Time

5 minutes

Cook Time

5 minutes

Serves

4 people

**Since all air fryers are not created equal, experiment with the time and temperatures of cooking.*
